ABHIPSA CHAKRABORTY

Biotechnology Engineer | Renewable Energy Engineer | Project Coordinator
Tilburg, Netherlands | +31 6 26927043 | abhitorsa99@gmail.com

PROFESSIONAL SUMMARY

Multidisciplinary engineer with a Bachelor's degree in Biotechnology and a European Master's in Renewable Energy (EUREC), with international academic and professional experience across the Netherlands, Greece, Spain, and India. Experience spanning biotechnology, clinical laboratory diagnostics, scientific research, laboratory analysis, renewable energy systems, wind energy, offshore engineering, and technical project coordination. Skilled in laboratory procedures, scientific documentation, technical analysis, multidisciplinary collaboration, and quality-focused working environments.

RELEVANT SKILLS

Biotechnology & Molecular Biology · Laboratory Analysis & Scientific Research · Renewable Energy & Wind Energy Systems · Technical Analysis & Project Coordination

TECHNICAL SKILLS

Biotechnology & Laboratory: Clinical diagnostics · Laboratory sample processing · Reagent & buffer preparation · Spectroscopy · Laboratory documentation · GLP/GMP/SOP compliance

Renewable Energy: Wind resource assessment · Annual Energy Production (AEP) · Offshore & floating wind · Techno-economic analysis · Wind energy systems

Software & Data: Python · MATLAB · SQL · Excel · DNV WindFarmer · Bladed

PROFESSIONAL EXPERIENCE

HR Generalist *Mar – Jul 2026*
Apex Digital Venture
- Managed end-to-end HR operations for 40+ employees, reducing onboarding processing time by 20%.
- Coordinated recruitment for 15+ open positions while maintaining 100% on-time offer turnaround.
- Supported cross-functional communication and administrative coordination.

Laboratory Assistant *Sep 2025 – Feb 2026*
Sanjeevani Labs, India
- Processed 120+ patient samples weekly for diagnostic testing while following GLP/GMP/SOP requirements.
- Performed reagent and buffer preparation, sample processing, and laboratory documentation.
- Maintained accurate laboratory records and followed established procedures for quality and compliance.

Offshore Structural & Mooring Engineer – Floating Wind *Jul – Dec 2024*
Mondragon University, Spain
- Coordinated multidisciplinary engineering activities for floating offshore wind projects, improving workflow efficiency by 35% and structural assessment accuracy by 20%.
- Collaborated with international research partners to deliver project milestones on schedule.

Wind Energy Analyst *Feb – May 2024*
National Technical University of Athens, Greece
- Conducted aerodynamic analysis, wind resource assessment, and Annual Energy Production (AEP) studies, improving wind forecasting accuracy by 15%.
- Constructed and Cp–λ tested a laboratory-scale horizontal-axis wind turbine.

Renewable Energy Project Engineer *Dec 2023 – Jan 2024*
Hanze University of Applied Sciences, Netherlands
- Performed techno-economic analysis for renewable energy systems.
- Contributed to projects projected to reduce CO2 emissions by 30% and improve LCOE by 10%.

Spectroscopy Analyst *Feb – May 2022*
Amity University, India
- Analysed 50+ biological samples using spectroscopy techniques for research purposes.
- Improved analytical accuracy by 20% through optimised laboratory methods and rigorous data checking.

Clinical Laboratory Technician Trainee *Jul – Aug 2021*
Sanjeevani Labs, India
- Processed 100+ clinical specimens for diagnostic investigations under time-sensitive conditions.
- Assisted with cervical cancer screening and pathological testing, reducing analysis time by 30%.

Laboratory Intern – Biodiesel Production from Jatropha Plants *May – Jun 2021*
Indian Institute of Technology Kharagpur
- Researched biodiesel production from Jatropha plants as a renewable feedstock alternative.
- Prepared chemicals, reagents, and laboratory solutions; performed analytical testing and maintained documentation.

PUBLICATION

Research Publication | Heliyon | 2023
An extension of cancer immunotherapy with dostarlimab, the PD1-PD-L1 pathway blocker — Heliyon, Vol. 9, Issue 12, Article e23169. DOI: 10.1016/j.heliyon.2023.e23169

EDUCATION

European Master in Renewable Energy (EUREC) *2025*
Hanze University of Applied Sciences, NL · National Technical University of Athens, Greece · Mondragon University, Spain

Bachelor of Biotechnology *2023*
Amity University, India
